

Stormin' Bob Swanson -- "The Singing Weatherman"

Musician/Meteorologist/
Children's Entertainer

Thank you for coming to our school --the students LOVED it! You do so much more than simply teach about weather, you make it fun for kids. I don't think I have ever seen weather taught the way you approach it. Adults and kids alike can explore weather in an exciting new way. My students will be singing your weather songs all year!—Sara Wilson, Gray Elem.

Thank you for coming to our class-- it was very fun. Some people that come to our class are almost boring, but you weren't boring at all. You weren't even almost boring!--Robyn, Mrs. Scheurer's Third Grade, St. Mary's School

Will Bob perform for more than one class? Yes, if you want to share the Stormin' Bob experience with other classes in your grade level, Bob will perform for up to four classes of students at one time (80 to 100 students--Wow, that's just \$2 per student!). Should another grade level also want a performance the same day, it can be arranged. An additional \$100 fee will be charged.

Bob's performances typically last 45 minutes and are suitable for ages 4 to 10. At the end of the show, Bob will field questions from students about weather topics. Students will also be allowed to wear a lightning bolt costume and have pictures taken with Stormin' Bob.

Stormin' Bob Swanson – "The Singing Weatherman"

Banjo Bob, the mandolin meteorologist, forecaster with a Stratocaster

Music and meteorology

What do you get when you cross music with meteorology? Stormin' Bob Swanson, the "Singing Weatherman."

Your students will be on the edge of their seats during Bob's lively and en-lightning weather presentation. They'll touch a real weather balloon, see a can crushed by the air in the room, thrill to the sight of a "tornado in a box," and "The Weather Wiggle" will have them dancing right out of their socks! They'll be having so much fun, they'll forget that they're learning at the same time!

Why Stormin' Bob?

Stormin' Bob's "Music and Meteorology" program will tap into students' natural fascination with the weather. The program introduces meteorological vocabulary, safety tips, and gives students a feel for the skills and equipment used by professional meteorologists.

Booking Stormin' Bob

Will Stormin' Bob come to my school or library? Based in Falls Church, Va., Stormin' Bob will drive to schools within a 30-mile radius (the greater DC area). Longer trips

can be negotiated with consideration for time and mileage.

How much will it cost? \$200 (tax included). This fee includes one copy of Bob's CD, "Do the Weather Wiggle with Stormin' Bob Swanson," (\$15 retail value) for the host classroom or library. This will be mailed in advance along with order forms for interested students. Additional copies of the CD can be purchased for the reduced price of \$10 each at the time of the performance.

Not only is Bob a knowledgeable meteorologist, he is a positive role model for young children. He encourages them to learn to read, write, study science, and master math skills. His weather presentations are informative and appropriate for primary students. --Deb West, First Grade, University School
